

From the holdings of
Western Archives, Western University

again. I suppose you will
have Aunt Tilly with you now,
please especially give her my
love. Aunt Emma was such a
nice letter about you all from
Walswood. I feel guilty not to write
more but do not seem to
manage it although I write
somebody every day. I wish I had
mother on your faculty in that
direction. Thanks for sending
Clara the +. I arrived just at the
right time and she was in such a
sweet letter.

Apparently censor 3022 does not
object to our letters!!! I wonder who he
is?

Where are the Sheffield boys? I never
have heard of them over here.

I thought a lot of van wood's book
and passed it on to Wood for
"higher criticism". Thanks for 1st
methodist list which is pretty good
for them. Ask James for personal
figures of the various religious sects
over here. Much love Alice Dear Bob

In the Field

Dearest Alice

Your letter of March 9th
came a few days ago and today
Wood sent me your nice long
letter of 4th by D. R. L. S. and
Sarah sent me over one from
mother and another from
Aubrey so I am well posted.
I telephoned Wood this afternoon
before I sent the cable (a rather
long business one) so you will
know by the end of the week that
we are both "still kicking".

So sorry to hear about Gordon
Glass. Was it his mother or
wife you referred to as being

today and is at least in a squadron on the
line. He looked a little worn I thought and it is
being work. I would signal my affections attached to
R.F. I was killed about 10 days ago.

Please thank Eselle for a fine pair of demi muffs
knitted by — her domestique which I gave to cleaning
faithful. Minion (with grey hair) who said they
"certainly would" be of great use to him. Unfortunately

I nearly wear them and as you may remember have
a drawer full of such things wanted for snowshoe
traps and skiptons. Partic papers to "gather" but take it
I was wanted about day Father but take it
from Father's last letter that he was much better
than and his new cable shows he was about

so dangerously ill. He is a
nice chap but Dorothy was rather
a disappointment to me. No I
have no idea what job J.E.S. has
secured over here but am
morally convinced that it is a
"safety first" one and that his
sojourn near the front line will
be in the shape of a "cheap"
looks to me, that is one when
the tourist stays the shortest
time possible in the most
interesting places. This is of
course strictly "entre nous".

I am so sorry you did not
get my French letter as I took
great pains with it but perhaps
somewhere again when not
hurried to get a mail I will
attempt another.
