

# Importing from IEEE Xplore

1. Complete your search
2. Mark appropriate records
3. Click on **Download Citations**

The screenshot shows the IEEE Xplore Digital Library search results page. The search term is "face recognition". The page includes navigation links like "BROWSE", "MY SETTINGS", "CART", "SIGN OUT", and "About IEEE X". On the left, there are filters for "REFINE/EXPAND RESULTS" and "Content Type". The main search results area shows "You searched for: face recognition" and a list of actions: "Set Search Alert", "Download Citations" (circled in red), "Email Selected Results", and "Print". Below these are options for "Results per Page" (set to 25) and "Sort By" (set to Relevance). A search result is displayed with a checked checkbox and the title "Markovian mixture face recognition with discriminative face alignment". The citation information includes the authors "Ming Zhao; Tat-Seng Chua;" and the conference "Automatic Face & Gesture Recognition, 2008. FG '08. 8th IEEE International Conference on".

4. Select **RefWorks** from the pulldown menu and click on **Download Citation**

This screenshot shows a "DOWNLOAD CITATIONS" dialog box overlaid on the search results. The dialog has two columns: "Include:" and "Format:". Under "Include:", "Citation Only" is selected. Under "Format:", "Refworks" is selected and circled in red. At the bottom of the dialog, the "Download Citation" button is also circled in red. The background shows the same search result as the previous screenshot, with the "Download Citations" button from the search results also circled in red.

5. Log in to **RefWorks**
6. Wait for confirmation that import is complete along with the number of references imported
7. Select **View Last Imported Folder** and put your references in a folder.
