

In order to improve access to more of the existing holdings of Western Archives copies of a number of preliminary finding aids are being made available. These preliminary finding aids, some of which were prepared many years ago, vary in degrees of completeness, detail and accuracy. Some provide only basic box listings of the contents of a fonds or a collection, while others provide additional background material. All are intended to be the starting point for access to the records and they should not be considered a definitive source of information on the full nature and contents of the fonds or collection. Questions about the information provided in the preliminary finding aids should be directed to [archives.services@uwo.ca](mailto:archives.services@uwo.ca)

## INTRODUCTION

*Broughdale - This neighbourhood takes its name from the Venerable Archdeacon Charles Crosbie Brough. A native of Ireland, Parson Brough lived in this part of London Township while Rector of St. John's Anglican Church, Arva from 1841 to 1873. Originally known as "Brough's Bridge", the community was officially named "Broughdale" in 1906 and was annexed to the City of London in 1961. A plaque was erected on Smith-Graham Big V Drugstore by the Broughdale Community Association in 1982. The above remarks in italics appear on the plaque mounted on Big-V on Richmond St. by the University gates.*

This North London community is a closely-knit, residential area with a long tradition of community and history as shown in the 1981 book, BROUGHDALE - Looking for its Past by A.J. Sawyer for the Broughdale Community Association. The Broughdale History Committee researched all aspects of the community's history and had extensive photographs taken by Dr. Bruce Sawyer.

The area described extends from the north side of Huron Street on the south to the Thames River on the north and to King's College and St. Peter's Seminary's land on the east and to the fringes of the University of Western Ontario on the west. Over the years the original area has been extended as the useful maps in the book and in the Display Mounts show. The original gates at Huron and Richmond Streets were moved to Springbank Park as its entrance gates.

The community began to grow after 1869 when the Anglican Diocese of Huron began a subdivision plan on its clergy reserve land. A sense of "being neighbours" developed and this has continued and centred around the Broughdale Public School and its Playground, the Broughdale Branch Library as well as St. Luke's Anglican Church, the shopping section on Richmond Street and the Broughdale Park (C.J.F. Ross Park at the bridge). Events, such as the July picnic in the park and the February pot-luck supper, have held the community together under the leadership of the Broughdale Community Association.

## BROUGHDALE COMMUNITY ASSOCIATION

As far back as 1972 residents of Broughdale began to work together when problems relating to the Burston green house development, the school and the Broughdale Lands at the bridge arose in this quiet, residential community. Mrs. Carol Holsworth was the moving spirit along with Maureen Leonard and Mrs. Margery Cartwright, in creating an informal organization of concerned citizens. Annexation (January 1, 1961) had brought threats and changes to "the noiseless tenor" of its way which the community had to face. The pleasant, little enclave of well-kept homes and grounds, shops, school and church, were threatened by an expanding and growing movement. So the Broughdale Community Association was formed in 1973 as stated in the Minutes of the Annual General Meeting of Sept. 19, 1977. In Sept. 1973 some 157 members supported the Association. The B.C.A. has a "fluid" membership which never fails to support its present concerns and projects. The organization is an affiliate of the Urban League of London, an umbrella for community groups in London.

The aims of the Association are namely;

1. To establish and represent the interests of the members of Broughdale.
2. To encourage and maintain positive aspects of community life through the organization and promotion of events of community interests (A.G.M.(6th), Oct. 20, 1980).

Attached is The Broughdale Community - its Needs and Common Interests. A leaflet, the Broughdale Community Association (blue) is on file in the black binder's file on the History Project. The 1973-74 problems and successful solutions are described briefly.

CONSTITUTION

AIMS OF THE ASSOCIATION to represent the common interests of residents in the Broughdale area before various public bodies; to study and promote the well-being of the residents living in the area and encourage residents to participate, and become informed of, civic affairs which may concern them.

GOVERNMENT the executive body of the association will consist of a chairman, vice-chairman, secretary and treasurer (membership) and a number of persons with the position of 'executive-at-large'.

MEETINGS: The chairman will call a minimum of 2 general meetings each year; one fall and one spring. The spring meeting will be the annual general meeting when elections will be held and membership renewed.

FEES Family membership will be \$2.00.

THE BROUGHDALE COMMUNITY ITS NEEDS AND COMMON INTERESTS

1. Broughdale is a residential area of mixed age and income levels, and varied housing stock. Area residents value and appreciate the variety and vitality this mixture brings to the neighbourhood. In 1974, many long time Broughdale residents remain in the area, giving a fairly high proportion of retired and elderly persons. The village character, although threatened and diluted somewhat, still exists and is valued.
2. The community is concerned that the present single family zoning of the area remains that way in actuality and spirit. We realize that in order to increase the number of families in the area, new housing of a type somewhat different from existing styles may have to be accepted, and may prove to be beneficial. We wish to be informed and consulted on any change contemplated for the area well in advance of firm plans being made by a city department or committee. At present, it is felt that a further increase of rental developments would be to the detriment of community life.
3. We support the concept that presently owned public lands and buildings remain in the public domain, even if their use should change. Again, we wish to be included in the early stages of any plans.
4. We understand the following represent some of the 'needs' of the area:
  1. A safe and secure environment for all residents, particularly young children.
  2. adequate recreational opportunities, both active and passive for all ages.
  3. special consideration for those whose choices are more limited for example; young children, mothers of pre-schoolers, the elderly, the handicapped. Planning should always include convenient transportation, a reasonable amount of neighbourhood commercial services (banks, shops, dry-cleaning, etc.) leisure and educational amenities geared for a variety of ages and life-styles.
  4. We accept the assets, and liabilities, of the University as neighbour. We welcome students, and benefit from their presence. We believe however that residents should not have to endure disturbance and inconvenience beyond normal tolerance.
  5. We are interested in the concerns of other Londoners in other parts of London, and care about the future of the city as a whole.

## VALUE OF THE ARCHIVES

These deposits consisting of documents (files and binders), photographs and mounted display panels are and will continue to be of interest and of use to the Executive and members of the B.C.A. for its history and activities, past and present. The files also will serve the research interests of individuals and students into long-established communities in London, community development and planning, zoning, public lands - needs and use, libraries, schools, parks and playgrounds as well as housing and traffic problems in London.

Such matters are of vital concern to planners, geographers, local historians, educators and graduate students. These archives may be the most comprehensive and detailed ones for London's neighbourhoods. Such material often fails to be retained as the organization may not have a proper "home" for keeping its records intact and secure such as that offered by the Regional Collection of the D.B. Weldon Library at U.W.O.

### SCOPE AND CONTENT NOTE, 1974-1991

The B.C.A. archives consists of a variety of materials, namely: photographs (people, places and events in Broughdale); vertical file folders relating to the B.C.A., its interests, concerns and projects, including by-laws, constitution, clippings, correspondence, membership lists, minutes, etc.; binders (scrapbooks, including material like above vertical file folders); display mounts of photographs and photocopies for display on Broughdale area and offset negatives for the "BROUGHDALE" book.

Size of collection: 8 cubic foot boxes, 3 oversize storage boxes

Donation History: 1986, February 1992, October 1993, March 1994 (newspaper clippings brought in by E. Spicer), May 1994, January 1995, April 1999

**Note:** This inventory is only for the most recent delivery of 2 cubic foot boxes and display mounts; plus existing photos box, Shawyer files and offset negatives already in Regional Collection

## FINDING AID 6 - SHAWYER FILES

B5307

Dates covered: ca. 1960's - 1984  
Arrangement: Subjects as indicated

These are a series of file folders kept by the Shawyers' which had been deposited previous to the deposit of March 12, 1992. These earlier files overlap somewhat with Mrs. Margery Cartwright's and Ray Bryson's file folders and binders. See Finding Aid 2 and 3 for comparison. No doubt some duplication exists. We, however decided not to resort or re-file the Shawyers' deposits. Careful consultation of the finding aids is recommended. Finding Aid 6 is not "broken down" into detailed entries as in Finding Aid 2 and 3.
