Preliminary Finding Aid

In order to improve access to more of the existing holdings of Western Archives copies of a number of preliminary finding aids are being made available. These preliminary finding aids, some of which were prepared many years ago, vary in degrees of completeness, detail and accuracy. Some provide only basic box listings of the contents of a fonds or a collection, while others provide additional background material. All are intended to be the starting point for access to the records and they should not be considered a definitive source of information on the full nature and contents of the fonds or collection. Questions about the information provided in the preliminary finding aids should be directed to archives.services@uwo.ca

This file is a microfilm of some of the notes made by Dr. Fred Landon in the course of his long career as newspaperman, teacher, librarian, and historian. Dr. Landon served the University of Western Ontario in several capacities, as professor of history, Chief Librarian, and finally as Vice-President and Dean of Graduate Studies. His interests were wide and varied: Canadian and American history, especially Canadian-American relations, Abraham Lincoln, the Civil War, the Negro, and the history of the Great Lakes. The notes, gathered during a lifetime of research, cover a period from approximately 1906 to 1969.

The collection, still in the original two 4-drawer filing cabinets and two separate drawers, is now housed in the Regional History Room at the University of Western Ontario. The order of the cards and slips has been preserved as Dr. Landon left it, with the sole addition of the numbers at the top right hand corner of each item and the insertion of guide cards to mark the contents of the individual drawers.*

Acknowledgements should be given when citations are made from these notes.
