In order to improve access to more of the existing holdings of Western Archives copies of a number of preliminary finding aids are being made available. These preliminary finding aids, some of which were prepared many years ago, vary in degrees of completeness, detail and accuracy. Some provide only basic box listings of the contents of a fonds or a collection, while others provide additional background material. All are intended to be the starting point for access to the records and they should not be considered a definitive source of information on the full nature and contents of the fonds or collection. Questions about the information provided in the preliminary finding aids should be directed to archives.services@uwo.ca

This collection, records of the offices of the City Treasurer and the City Clerk of the City of London, Ontario, was generated by the program of the city to insure those of its citizens fighting in World War I. The city of London insured the lives of non-commissioned officers and enlisted men who had resided in the city for two years prior to enlisting. The insurance policies were underwritten by the Metropolitan Life, Aetna Life, and State Life insurance companies. The policies provided life insurance coverage for the amount of $1000.00. This was a costly undertaking because in addition to the standard premium, there was a "war risk" rating of $25.00 per policy. There is evidence to suggest that other cities implemented similar programs (Correspondence from City Treasurer of Toronto, J-1).

These records include information about individual soldiers who were citizens of the City of London, about the civic insurance program instituted by the city, and about a variety of related municipal and military subjects. The collection is arranged first by the type of document, i.e. lists, correspondence, etc, and within this by originating office. There are two boxes, containing two cubic feet of records.
