SCENT AWARENESS

To ensure the health and safety of all students, staff, faculty and visitors, the University requests your cooperation in maintaining a scent-free workplace and keeping the air we share healthy for everyone.

For the general population, exposure to scents is not typically problematic. However, from time to time, the presence of perfumes and other scented products can present indoor air quality concerns that may affect worker/occupant comfort.

Furthermore, for a very small portion of the general population, scented products may present a risk of health hazard.

Visit www.uwo.ca/hr/safety/topics/scent_awareness.html for Western's Scent Aware Guideline or see your nearest Service Desk for further details.
